Praise for *Good News About Injustice*

"I defy anybody to emerge from exposure to this book unscathed. In fact, my advice to would-be readers is 'Don't! Leave the book alone!'--unless you are willing to be shocked, challenged, persuaded and transformed."

John Stott (from the foreword)

"A book of prophetic and vital significance. Gary Haugen has pioneered in a field where Christians should be at the forefront."

Philip Yancey, author of *What's So Amazing About Grace?* and *Soul Survivor*

"Gary Haugen's splendidly written book is a time bomb. Read it prayerfully and seriously, and sooner or later the combined chemistry of his riveting presentation of both planetary injustices and the imperatives of Scripture will explode within you and catapult you out in new ways to our wounded world. I predict that reading the book and doing nothing about it will be impossible."

Michael Cassidy, founder and international team leader, African Enterprise

"I have seen Gary Haugen and the International Justice Mission staff come alongside Christian ministries in various parts of the world and enable those ministries to be God's instruments of justice in the face of severe oppression. The principles in *Good News About Injustice* are more than good biblical theology. They represent the credo that a group of men and women led by Gary aspire to and stretch themselves out to live by. As you read the stories, yes, and perhaps weep, allow God to quicken your heart for the abused and grant you the courage to live for his justice among the world's poor and oppressed."

Paul E. McCaughan, ambassador-at-large, The Mission Exchange

"This book is a rich resource for theological reflection on the relationship between Christian faith and social justice. . . . Haugen's clear prose and engaging style makes the book suitable for high school youth groups, undergraduate classes in religion and ethics, and adult discussion groups."

Sojourners

"This is an important book on a neglected topic. . . . Its insightful diagnosis of the nature of injustice and strategies against it may be its strongest point. Its biblical teaching, several success stories, and practical advice give the reader a basis for hope."

Moody

"Full of dramatic storytelling and biblical reflection, this book is a strong and level call to transformation and deliberate action in an unjust world on the part of all who claim the name of Christ."

Touchstone

"In this much-needed and timely piece of work, Gary Haugen promises to provide us with reflections on three primary concerns: 'the injustice of our world, the character of our God, and the opportunity for God's people to make a difference.' He does not disappoint."

Fellowship

"This book is a primer on caring, on following Jesus with our actions. It is a road map to help us navigate a fallen world. When I think about the joy-filled if still uncomfortable journey I have been on in the last several years, the places I've gone and people I've met in an effort to act out a faith I am still trying to understand, I point to this book as the starting place. Will you please read it?"

Donald Miller, bestselling author of *Blue Like Jazz* and *Through Painted Deserts*

"Since its original publication a decade ago, IJM President Gary Haugen's *Good News About Injustice* has awakened the church to God's passion for justice and inspired a new generation to join the battle against slavery and violent oppression and for the human rights of all people. This updated *Good News* includes casework stories from ten years of IJM's work on the frontlines of violence, injustice and exploitation of the poorest. Like Gary's first edition ten years ago, *Good News About Injustice* is a clarion call for Christians to share God's heart for justice and to show up where the world needs them most--among those fighting for their lives and the most basic of rights."

Larry Cox, executive director, Amnesty International USA

"Very few books are better after ten years than when they were first published. This is one of them. Its vision has become more relevant, compelling and, most of all, achievable than we ever could have hoped."

Andy Crouch, author of *Culture Making*
