Sixth Edition of a Seminal Worldviews Text

For more than forty years, *The Universe Next Door* has set the standard for a clear, readable introduction to worldviews. Using his widely influential model of eight basic worldview questions, James Sire examines prominent worldviews that have shaped the Western world:

- theism
- deism
- naturalism
- Marxism
- nihilism
- existentialism
- Eastern monism
- New Age philosophy
- postmodernism
- Islam

Intertwined with this analysis, he presents an overview of intellectual history giving insight into the current state of Western thought and culture. Critiquing each worldview within its own frame of reference and in comparison to others, Sire encourages readers to wrestle with life’s biggest questions and examine the core beliefs and commitments on which they are building their lives.

The sixth edition, updated by Sire’s longtime editor Jim Hoover, features new explanatory sidebars, helpful charts comparing worldviews and illustrating their historical flow, and a chapter on challenges to a Christian worldview in the twenty-first century. New discussion questions will help readers reflect more deeply on the ideas in each chapter.

*“Each new edition of James Sire’s classic text on worldviews, The Universe Next Door, only adds to the comprehensiveness and adaptability to classroom instruction. . . . It is an essential text for every Christian’s library.”*

It has a number of new features—including clarifying sidebars, charts, study questions, and a new chapter tackling recent challenges to a Christian worldview—that make its content clear, updated, and easy to use as a text.”*
